H.E.R.B.I.E. V1 Assembly and BOM (Regenerated)

H.E.R.B.I.E. V1: PROVISIONAL / NOT PHYSICALLY TESTED

Units: millimeters. Approximate: height 500; head 240 x 170 x 145;
torso 220 x 190 x 205; base 280 x 240 x 115. These are not validated.

Suggested build order (subject to fit testing):
1. Check individual STL print bed sizes; segment oversized parts before printing.
2. Verify M3 hole fits with a small coupon; never assume all interfaces mate.
3. Test-fit stationary base, frame uprights and torso plates before loading.
4. Add fixed neck and hollow head frame only after stability verification.
5. Trial-fit static arms, compute and battery trays; no electrical system assumed.
6. Install cosmetic head and torso panels only after accessibility checks.

18 Part inventory:
HBR-001 Head Front Shell
HBR-002 Head Rear Shell
HBR-003 Faceplate
HBR-004 Head Internal Frame
HBR-005 Fixed Neck
HBR-006 Upper Frame Plate
HBR-007 Lower Frame Plate
HBR-008 Left Upright
HBR-009 Right Upright
HBR-010 Torso Front Panel
HBR-011 Torso Rear Panel
HBR-012 Left Shoulder Interface
HBR-013 Right Shoulder Interface
HBR-014 Left Static Arm
HBR-015 Right Static Arm
HBR-016 Computer Adapter Tray
HBR-017 Battery Holder Tray
HBR-018 Stationary Base
